

ONLINE INSTRUCTION

Personal, Interactive, & Flexible

PERFECT FOR BUSY AFTER SCHOOL SCHEDULES!

- ✓ Sensory-cognitive, intensive, one-to-one instruction for qualified students
- ✓ Log in from home — instruction online
- ✓ Need computer with camera and internet access sufficient for streaming video

What is Online Instruction?

Online instruction is the same instruction students receive in a learning center, delivered via the internet. It takes place through video conference meetings hosted by Lindamood-Bell. An at-home facilitator must be available at all times during the instruction.

Who will be working with my child online?

Lindamood-Bell staff from a learning center will work with your student online.

For more information, contact your local Lindamood-Bell® Learning Center today.

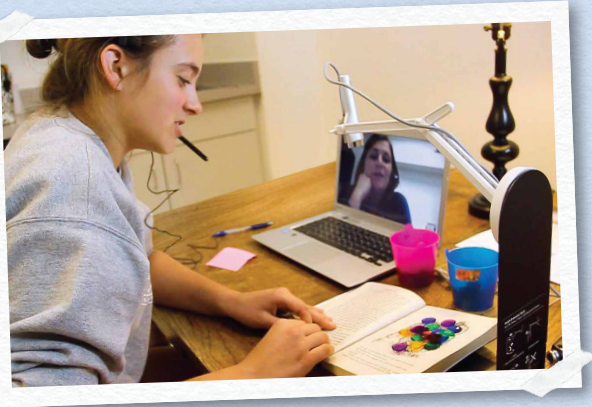

(800) 300-1818

Network Requirements

We recommend going to [speedtest.net](https://www.speedtest.net) to check your network speed.

Online Instruction will require:

- Ping of less than 100 ms
- Download speed of at least 2 Mbps
- Upload speed of at least 2 Mbps
- Limit use of the network by other devices during the Online Instruction session (other devices streaming content such as Netflix, Pandora, etc. will drastically reduce bandwidth required for Online Instruction).

Online Instruction Kit Deposit and Hardware Requirements for Students

- Pay \$500 OLI Kit deposit—fully refundable with return of technology in kit once instruction is complete.
- Students are required to use the technology and materials that are in the Online Instruction Kit.

This Kit includes:

- A Chromebook
- Headphones
- Document camera
- Instruction materials
- UPS return label

Technical Rehearsal for Facilitator and Student

Participate in a tech rehearsal prior to the start of the online sessions with the Learning Center.
